

MODE

EXCEPTIONAL FUNCTION & FORM

PLEDGE

1. BACK HEIGHT ADJUSTMENT

The height of the double curvature back rest can be adjusted to suit the small of the back providing personal comfort.

2. BACK ANGLE ADJUSTMENT

The back angle can be locked or released encouraging muscles to work and help circulation if needed.

3. LUMBAR ADJUSTMENT

For additional support to the lower back the lumbar area can be inflated or deflated to suit the body's shape.

4. SEAT HEIGHT ADJUSTMENT

The seat height can be adjusted making the elbows slightly higher than the desk surface while shoulders remain relaxed.

5. SEAT ANGLE ADJUSTMENT

The angle of the waterfall seat can be fixed or left in free float, making personal preference key particularly in a sedentary role.

6

6. ADJUSTABLE HEADREST

Additional neck support is provided with an adjustable headrest, which can be moved into various positions to provide support when reclining.

7

7. UPHOLSTERED BACK

The double curvature fully upholstered back rest has been ergonomically shaped to allow instant support for all body types.

8

8. HEIGHT ADJUSTABLE ARMS

The adjustable arm can be raised or lowered to meet individual preferences, taking the strain off the upper limbs while resting.

9

9. SEAT SLIDE ADJUSTMENT

The depth of the seat can be adjusted to suit various users. As with all of the adjustments for Mode, this is perfect for a chair used by multiple people.

10

10. BODY WEIGHT TENSIONER

To make the free float feature of the seat suitable for everybody the tension can be increased or decreased accordingly.

MODE

A good working posture requires the least amount of static muscle work with the least muscular effort, therefore the more varied the posture the better.

The correct sitting position is the critical first step in minimising the risk of back pain, as the spine is one of the most delicate parts of the human body.

Mode is a fully adjustable operator chair with enhanced features, providing form and function for every individual.

The sitting position can be altered via a number of easy to reach levers and buttons to give the user maximum support regardless of individual height or weight.

Mode has been developed for use in all working environments from a single office user to large work spaces and call centres.

The Mode chair features high levels of comfort and style and is the ideal solution for giving the best universal support.
